**Blood Glucose Diary** – A means to record daily blood glucose readings online, plot them on a range of graphs and share them with HCP’s.

**Blood Glucose Diary - Graph View**

![Average Daily Trend chart for marke](image)
Carbohydrate Portion Lists – An online copy of the DAFNE Carb Counting booklet that is searchable and can be expanded with user entries.

Course Handbook – An online copy of the course handbook given to graduates during the DAFNE course.
News – All the latest DAFNE news.

Below is the latest news from DAFNE Online - including stories related to the website, the DAFNE Course, and Type 1 Diabetes in general. If you feel you have a noteworthy news item, please contact us here.

Mobile version expanded
By marke on May 22, 2009 9:30pm Edit | Delete

In case you have not noticed, the mobile version of the site has now been upgraded. It now includes the DAFNE handbook and the forums. Can anyone with a mobile that has internet access try accessing it and let us know about any problems. We can then work on fixing them to provide the best service possible via mobile as well as normal PC.

DAFNE Online now mobile
By Simon on Apr 20, 2009 6:48pm Edit | Delete

You can now access DAFNE Online via your mobile device! Currently this is a cut-down version of the site, with access only to the Carbohydrate Counting and BG Diary parts of the normal site, but formatted nicely for the small screen. Point your mobile browser at www.dafneonline.co.uk to see the mobile login screen.

Please use the mobile forum to provide feedback on the mobile site, and request new features.

DAFNE in Peril
By marke on Apr 2, 2009 1:21pm Edit | Delete

We have heard today that the Wirral PCT are intending to withdraw funding for DAFNE at Arrowe Park and are forcing the DAFNE educators there to cancel all planned courses.

This is totally unacceptable and if you can put us in touch with anyone in this PCT's area who can help by complaining to the PCT, please post in the General Discussion forum under the DAFNE in Peril topic.

Mobile Version – All of the above features formatted for and available on mobile devices such as mobile phones and PDA's, giving you access wherever in the world you are.
