

# Diabetes Network

## ***Do you live with diabetes?***

Join the ALLIANCE's Diabetes Lived Experience Network to get your voice heard and improve diabetes care in Scotland.

## ***What is the network for?***

To ensure the delivery of the Diabetes Improvement Plan is influenced and informed by people with lived experience of living with and being at risk of diabetes.

## ***Why does this matter?***

We want to directly hear about people's individual experiences. Our aim is to ensure people are at the centre, that their voices, expertise, and rights, drive policy and sit at the heart of design, delivery and improvement of support and services.

## ***How will it work?***

We will offer a variety of ways in which to give your views; attending meetings (on line and in person), surveys, one to one interviews, however works for you

To join the network, complete the network joining form and if you are comfortable to do so, the equality monitoring form, available from the link below.
